**Tutorial**

title : String
…

checkAvailability() :
 Boolean
…

*M2T*

```java
package entities;

import java.io.Serializable;

public class Tutorial implements Serializable{

    private String title;

    public String getTitle() {
        return title;
    }

    public void setTitle(final String title) {
        this.title = title;
    }
    …
    public boolean checkAvailability(){
        …
    }
    …
}
```
